Re-Advertisement for Equipment Bids

Due to lack of sufficient bids for the following bid packages, sealed proposals will be received until 2:00 PM on September 22, 2016 in conference room 301, Administrative Services Building III, 2701 Sullivan Drive, Raleigh, NC 27695 and immediately thereafter publicly opened and read for the manufacturing of a combustion turbine generator, steam turbine generator and steam surface condenser for the Centennial Cogen project located at the NCSU Centennial Central Utility Plant.

North Carolina State University
Centennial Utility Plant Cogeneration System and Building Addition
SCO# 12-11955-02A
NC State# 201220017

The Centennial Utility Plant Cogeneration System and Building Addition project will add power generation and steam production capacity to the existing utility plant on Centennial Campus. Due to the long lead time for procurement, NC State will pre-purchase the CHP equipment prior to bidding the general construction package. This CHP equipment is included in this bid package.

Bids will be received for a purchase contract. All Proposals will be lump sum.

Invitation to Bid

An Invitation to bid for this project which includes access to electronic bid documents can be obtained from DPR Construction, David Heath, david.heath@dpr.com beginning on August 11, 2016.

The State reserves the unqualified right to reject any and all proposals.

North Carolina State University has an affirmative policy of fostering, promoting and conducting business with minority owned enterprises. Minority contractors are encouraged to participate in the bidding process.

The bidder must include completed minority business subcontractor documentation form(s) with their proposal or the bid may be considered non-responsive and invalid.

Pre-Bid Meeting

There will not be a pre-bid meeting since this is a re-advertisement for the major equipment.

Thank you for your interest in the project and please do not hesitate to contact us with questions.

Regards,
