

ANNUAL WASTEWATER COLLECTION SYSTEM REPORT

Calendar Year 2017

For Distribution to the Users of the North Carolina State University (NC State) Wastewater Collection System as required by General Statutes Chapter 143-215.1C(a).

There were no NC State University reportable Sanitary Sewer Overflow (SSO) events during the year 2017.

REMINDER: Fats, Oils and Greases (“FOG”) should not be disposed down the drain. Doing so could cause a sewer overflow. Allow FOG to cool, and then place these materials in a suitable container and dispose with the trash. FOG can be recycled at NC State: Waste Reduction and Recycling (WRR) in partnership with University Housing, provide plastic “Cease the Grease” containers for this purpose.

If there are any questions regarding this notification, please contact Kenneth Taft, 919-513-7176, or by email: jktaft@ncsu.edu.
