

Safety Philosophy

for NC State Facilities Division

ALL MISHAPS ARE

PREVENTABLE.

THERE ARE

NO ACCIDENTS.

I expect you to think safely and act safely at all times. Identify the hazards and know how to eliminate or reduce them.

All employees and contractors play a vital role in preventing mishaps. Take an active role to ensure a safe working environment for everyone.

If the safety of an activity is in doubt, stop and regroup. Do not allow unsafe acts to "happen." You are responsible for your environment.

Doug Morton

ASSOCIATE VICE CHANCELLOR, FACILITIES

FOR EVERY JOB:

1. Identify Hazards
2. Assess Hazards
3. Establish Controls
4. Monitor Effectiveness

If you are unsure how to control a hazard, PAUSE and talk to your supervisor.

NO ONE GETS HURT. GO FOR ZERO.
